SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Languages: Python, Java, C++, JavaScript, PHP
- Frontend: React, Angular, HTML, CSS, Tailwind CSS
- Backend: FastAPI, Node.js, Laravel
- Databases: PostgreSQL, MySQL, MongoDB
- AI & Data: Machine Learning, Data Analytics, Jupyter Notebook, Bioinformatics
- Cloud & Tools: AWS, Git, GitHub, Linux, Docker, Figma

LANGUAGES

- Sinhala
- English

PROFILE

Information Technology undergraduate with experience in software development, web applications, databases, AI, IoT, and data analytics. Seeking an internship to apply technical skills, contribute to real-world projects, and gain industry experience.

EDUCATION

BSc in Information Technology 2024 - Present
Undergraduate
Sri Lanka International Buddhist Academy (SIBA campus), Kandy

CERTIFICATE

Google Advanced Data Analytics Professional Certificate Aug 2026
Google via Coursera

Google AI Professional Certificate Aug 2026
Google via Coursera

PROJECTS

AI Study Assistant Web Application
Developed an AI-assisted learning platform providing personalized study support and intelligent learning features.
Technologies Used: React, FastAPI, Python, Ollama, PostgreSQL

SkillExchange Platform
Developed a role-based mentorship platform for connecting students with mentors, featuring authentication, mentor profiles, skill management, role-based authorization, and RESTful API-based CRUD operations.
Technologies Used: PHP, Laravel, MySQL, Eloquent ORM, REST API

Online Banking System
Developed a secure online banking system supporting user authentication, account management, transaction processing, and database operations.
Technologies Used: PHP, MySQL, HTML, and CSS.

IoT Obstacle Avoiding Car
Developed an autonomous IoT-based obstacle-avoiding car using Arduino, embedded C, and sensors to detect obstacles and navigate automatically.
